

NextLPG

Non-corrosive LPG piping

NextLPG

The NextLPG pipe is made of high density polyethylene (HDPE) and it is designed for the high pressure LPG distribution in underground installations. With an operating pressure of 25 bars the NextLPG pipe is designed to meet the high standards of safety in the LPG industry.

The unique inside lining prevents permeation by hydrocarbons while its antistatic property ensures that static electricity dissipates safely.

NO CORROSION

While steel pipes and other pipes may corrode on the outside as well as on the inside, creating problems with loose particles damaging sensitive parts of dispenser. The NextLPG pipe is completely corrosion resistant.

NO STATIC ELECTRICITY

Antistatic lining prevents the pipe from accumulating static electricity and eliminates related hazards. This property makes the pipe the safest on the market. It is the only LPG pipe in compliance with 'Code of practice CENELEC TR50404'.

Product Range

Part no.: **NP-LPG25-100**
LPG pipe DN25, (OD51),
packing: 100m coil

Part no.: **NP CF10**
Stainless steel compression
fitting incl. bolts

Part no.: **NP IC10-NPT**
Stainless steel insert coupling
Φ25mm, thread 1" NPT

Part no.: **NP TF10-NPT**
Stainless steel threaded flange
Φ105mm, thread 1" NPT

Part no.: **NP CC SET**
Coupling SET

Part no.: **NP FS63**
Fixing strap for 90° bend

QUICK INSTALLATION

Just roll out the pipe into the trenches of the station and connect one end to the tank, and the other end to the dispenser. Done. No welding, no isolation are needed.

LOWER COST

Estimated lifetime of NextLPG pipe is 40 years. NextLPG pipe provides lower total cost of ownership and higher return on investment than any other pipe system.

NextPlastics

is a specialized company conducting design, construction, development and sales of polymer solutions for industrial applications with the objective to ensure environmental and safety benefits when conveying liquids and similar activities. Anyone using products from NextPlastics will enjoy high quality and standard that comes from using the highest quality of materials and design ensuring long life and problem-free operation over many years. The NextLPG pipe is a product with durability, reliability and simplicity of installation.
